# MARINE SIP
by FERMAX

With IP technology, a leading solution in integration and functionality

ref.1670   ref.1671   ref.1672   ref.1673   ref.1674   ref.1675

The **MARINE SIP** panel is an advanced and versatile solution that has been designed for the integration of the video door entry system with IP telephony systems.

SEAMLESS INTEGRATION AND WIDE COMPATIBILITY

The **MARINE SIP** panel represents a significant step forward in terms of codec and protocol configuration options, enabling greater **compatibility of the video door entry system with IP VoIP telephony manufacturers.**

It works with other MEET products, FERMAX's 100% IP video door entry system, such as IP monitors and guard unit, making it the ideal choice for projects where security and communication in residential communities and the business sector are a priority.

FUNCTIONS

Possibility to set sequential call jumps with configurable time.

Sending RTSP video stream to CCTV recorders or home automation screens with up to 3 simultaneous connections.

Selecting the destination of different calls according to the time (no need for SIP server).

Sending and receiving HTTP commands.
Registration on 2 SIP servers.

FEATURES

- Available in **1 to 5 pushbutton models.**
- **IP65 IK09.**
- **High-quality 316L stainless steel** finish.
- **Thickness**: 2.5 mm.
- **2Mpx HD camera 1080p.** Integrated lighting.
- **Programmable** pushbuttons.
- **Vandal-proof** screws.
- **Backlit** cardholder.
- **PoE** power supply.
- **Flush** or **surface** mounted.
- With **2 relay outputs.**

The panel also has connectivity thanks to its compatibility with the **MEET ME application**, the **call divert service from video intercom to mobile phone**, providing greater flexibility and control over communications. (This function requires an additional MEET ME licence (ref. 1496), not included with the panel).
